## Undergraduate (Final Year) Sports Science and Strength & Conditioning Placement

Swansea City Football Club are providing a Sports Science and Strength & Conditioning undergraduate placement as part of an ongoing relationship between Swansea University and Swansea City Football Club.

This placement will be open to students moving into their final year of study in the 2024/25 academic year who are currently enrolled on a relevant undergraduate degree programme at Swansea University.

In this unique opportunity the successful candidate will support the sports science department, one day per week (Wednesdays) under the supervision of the Head of Sports Science, the 1<sup>st</sup> Team Sports Scientist, and the 1<sup>st</sup> Team Assistant Sports Scientist. This placement will allow the successful student to develop the skills required to work in applied sports science support at a professional football club. This will include assisting with the delivery of gym and pitch-based sessions, assisting with the collection of physiological data, learning how to utilise the various technologies and equipment used in applied sports science, and all other aspects of sports science support.

### **The placement with the club will run throughout the 2024/25 academic year**

We expect interest in this placement to be high. If you feel you are the right person for this placement, you can apply by a 1-page cover letter outlining your current skills and why you feel you would benefit from undertaking this placement with Swansea City FC.

Applications are to be sent by email to [sportsscience@swanseacity.com](mailto:sportsscience@swanseacity.com)

**Closing date for receipt of applications: Friday 31st May 2024.**  
**Interviews will take place over video call at an agreed time and date before the end of June 2024.**
